

## End use

Move to the beat of a different drum with Drumplex®, a smart alternative to fiber, plastic and steel 55-gallon drums. The Drumplex bin stores up to 55 gallons of non-hazardous liquid product such as: purees, edible oils, paints, and more. It can be collapsed for storage and offers labor, product and storage savings over traditional rigid containers. Whether you are shipping by truck, by sea, or by rail, Drumplex is the intermediate bulk container of choice.

Disposable. Space Saving. Economical. Drumplex.

## Features

- Completely recyclable and biodegradable making it easy to dispose
- Delivered knockdown to maximize freight cost and storage space
- Full open top liner and two inch bottom dispense making connecting Drumplex to existing supply lines easy and safe
- Low initial cost, combined with elimination of cleaning and return freight, means big savings
- Custom print is available
