

Description

FibreGreen[®] 50 is a recycled kraft paper containing a minimum of 40% post consumer recycled fibers and a total recycled fiber content of at least 50%. With high recycled content and the strength of traditional kraft paper, FibreGreen 50 is for those who want to go green without sacrificing performance. FibreGreen 50 end-use applications include: merchandise, retail and grocery bags.

FibreGreen. The go-to green.

Benefits

- Composed of OCCs (old corrugated containers) processed in our state-of-the-art OCC facility
- Clean and easily converted
- Meets FDA (Food and Drug Administration) requirements for direct food contact
- Wide range of basis weights
- Sustainable Forestry Initiative[®] (SFI) fiber sourcing certified

Compliance

FibreGreen 50 is manufactured in compliance with FDA, CONEG and RoHS regulations. Our paper is thoroughly tested to ensure that strict substance limits are met.
