

End use

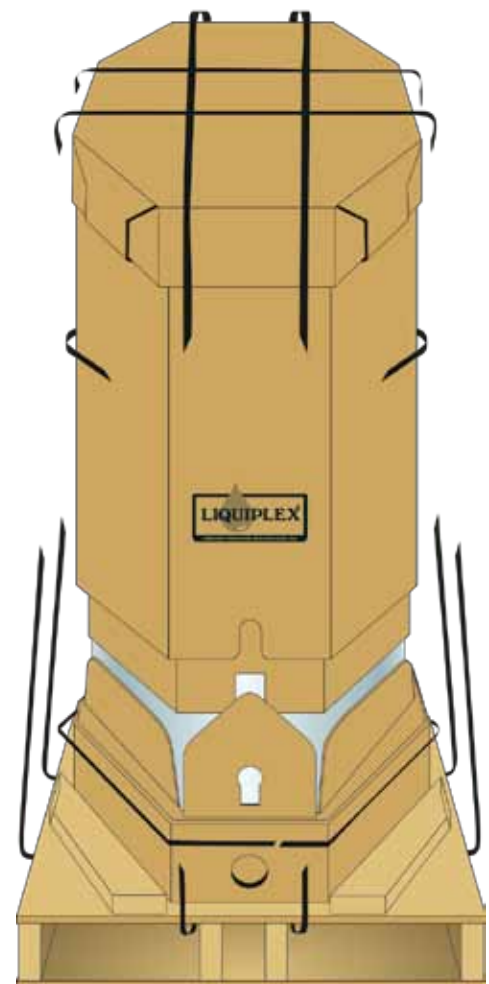

Secure peace of mind, convenience and savings with Longview's Liquiplex® System. The Liquiplex container family uses eight sides of rugged Triplewall corrugated protection- making heavy, steel drums and plastic totes obsolete. It is the most economical and environmentally responsible method for shipping liquid non hazardous products such as: purees, edible oils, paints, and more. Manufactured from a green, renewable resource, it is completely recyclable and biodegradable.

Innovative. Secure. Liquiplex.
