

End use

Liquiplex® LSQ bin offers everything our customers are looking for—and then some. The LSQ bin stores up to 275 gallons of non-hazardous liquid product such as: purees, edible oils, paints, and more. It can be collapsed for storage and offers labor, product and storage savings over traditional rigid containers. Because it's economical and disposable, Liquiplex LSQ allows lower-volume users in distant locations to enjoy the benefits of bulk handling.

Collapsible. Economical. Liquiplex LSQ.

Features

- Delivered knockdown to maximize freight cost and storage space
- Offers plastic bag liners in open- or closed-top styles.
- Both styles are available with a 2-inch threaded fitment and bung for bottom draining.
- The closed-top style is equipped with a top fitment and bung.
- An inexpensive valve and probe are available, making connecting Liquiplex to existing supply lines easy and safe.
- Custom print is available
